**Grand Opening Celebration for Golden Pond Assisted Living Expansion
Thirty-three New Apartments for Stylish Senior Living**

November 7, 2013 — "They've provided a wonderful service for us. They've been a great partner for our community," said Cindy Chesmore, Director of the Hopkinton Senior Center (Standing) to the principals of Golden Pond, members of the business and government community and prospective renters who all had a chance to tour the facility and sample the food prepared by the in-house staff.

The oldest assisted living facility in the area just became the newest facility in the area with the addition of 33 new apartments, one and two bedrooms, a common elegant dining area, game room, walking paths, gardens, a gazebo with a fire pit and horseshoes. And for people moving in springtime, there will be a putting green awaiting them.

Tomorrow, look forward to a video of the facility as well as welcome messages and descriptions from principals
Below, a model bedroom in a one-bedroom unit. Keep watching for more open house tours in the future.
